**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 12, 2002, has been entered.

#### ***Drawings***

2. The drawings dated 11-25-97 have been reviewed by an Official draftsman and a copy of the PTO-948 is attached.

#### ***Election/Restriction***

3. This application contains claims directed to the following patentably distinct species of the claimed invention: (1) claim 245: monomeric units are bound to each other through noncovalent polymeric interactions of the polymers of the monomeric units, monomeric units are attached to a binding matrix, or both; (2) claims 246, 257: linear or branched; (3) claims 247, 258: homopolymer or heteropolymer; (4) claim 250: virus, phage, bacterium, non-bacteria cell or cellular material, tissue, organ, organism, or specific combination; (5) claims 251, 259: naturally occurring, modified natural compound, synthetic compound, recombinantly produced compound or a specific combination; (6) claim 252: protein, polysaccharide, fatty acid, fatty acid ester, polynucleotide, or a specific combination; (7) claim 253, antibody, hormone, growth factor, lymphokine, cytokine, cellular matrix protein, or a specific combination; (8) claim 254:

polyclonal or monoclonal; (9) claim 255: linear or circular; (10) claim 260: polypeptide, polynucleotide, polysaccharide, or a specific combination; (11) claim 261: ionic interactions, hydrogen bonding, dipole-dipole interactions, or a specific combination; (12) claim 262: polycationic or polyanionic; (13) claims 265-266: homogeneous or heterogeneous; (14) claim 275: charged polymer is polycationic, polyionic, polynucleotide, modified polynucleotide polynucleotide analog, or a specific combination; (15) claim 277: antibody, an F(ab')<sub>2</sub> fragment, or both.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, for each group, (1)-(14), the claims not included in the group are generic. For each claim listed in each group, applicant may elect a unique choice. However, one choice must be made for all claims recited above to be responsive.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after

the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to *Mary M. Schmidt*, whose telephone number is (703) 308-4471.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, *John LeGuyader*, may be reached at (703) 308-0447.

Any inquiry of a general nature or relating to the status of this application should be directed to *Katrina Turner*, whose telephone number is (703) 305-3413.
